

live on the  
**tap**  
side of life.

Bottled water is  
**3400 times**  
more expensive  
than tap water.

It takes PET plastic  
**1000 years**

to biodegrade in landfills.

Production of disposable  
water bottles consumes over

**17 million barrels of oil**

and emits **2.5 million tons**  
**of CO<sub>2</sub>** every year.
